Mr. Arthur France
Quality Manager
Solitron Devices, Inc.
3301 Electronics Way
West Palm Beach, FL 33407

Dear Mr. France:

Re: Class H MIL-PRF-38534 Certification, Hybrid Microcircuits, FSC 5962, VQ(VQH-12-23842)

Your hybrid facility at the above address was sample audited the week of July 12-14, 2011 for compliance with MIL-PRF-38534 Class H. An acceptable level of confidence has been established that compliance with these requirements exists. Therefore, Solitron Devices' Class H certification (certificate enclosed) is continued effective the date of this letter.

This certification is for the following:

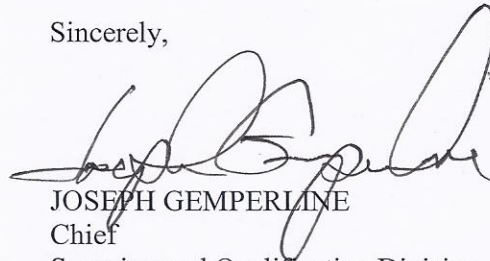

- a. Quality Management Plan: H1028 Revision L
- b. Conversion of Customer Requirements: H1033 Revision J
- c. Controlled documentation baseline for processing MIL-PRF-38534 devices: H1029 Revision M

This certification is valid until terminated by written notification from the qualifying activity. The normal period of certification is two years from the date of the validation and, if warranted, may be withdrawn by DLA Land and Maritime at any time. Your facility may be re-audited on a drop-in basis at any time.

All screening, qualification, conformance, and periodic inspection must be performed at a facility which has a DLA Land and Maritime-VQ letter of Laboratory Suitability for the applicable test method and condition. QML manufacturers shall notify the qualifying activity immediately after learning of a potential issuance of a GIDEP alert, problem advisory or major quality/reliability problem affecting QML products. This includes failure to perform screening or sample testing (including inspection) in accordance with MIL-PRF-38534. Failure to provide notification may be grounds for removal from QML-38534.

If you have any questions, please contact Mr. Dan Miller at (614) 692-2908.

Sincerely,

JOSEPH GEMPERLINE
Chief

Sourcing and Qualification Division
