

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

This Form SD of Solitron Devices, Inc. (the "Company") is filed pursuant to Rule 13p-1 promulgated under the Securities Exchange Act of 1934, as amended, (the "Rule") for the reporting period January 1, 2016 to December 31, 2016.

Conflict Minerals Disclosure

Rule 13p-1 requires disclosure of certain information when a company manufactures or contracts to manufacture products for which the minerals specified in the Rule are necessary to the functionality or production of those products. The specified minerals are columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which are limited to tantalum, tin and tungsten (the "Conflict Minerals"). The "Covered Countries" for the purposes of Rule 13p-1 are the Democratic Republic of the Congo, the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia and Angola. Certain of the Company's operations manufacture, or contract to manufacture, products for which Conflict Minerals are necessary to the functionality or production of those products. The Company has conducted a good faith reasonable country of origin inquiry regarding the Conflict Minerals. This good faith reasonable country of origin inquiry was reasonably designed to determine whether any of the Conflict Minerals originated in the Covered Countries. Specifically, the Company surveyed its suppliers to determine whether any of the components used in the Company's manufacture of products contained Conflict Minerals. The Company further requested and obtained from its suppliers written representations regarding the source of any Conflict Minerals that are necessary to the functionality or production of the Company's products. Based on this reasonable country of origin inquiry, the Company determined that it has no reason to believe that the Conflict Minerals may have originated in the Covered Countries.
